SETUP AND ART TRANSACTIONS

We will host a reception on Saturday, February 8th where 3D artists will set up and take down their booth in that same day. The reception will go all day, during our normal winter operating hours of 12-10pm. Of course we encourage you to be there all day, but if that's not possible, we completely understand. You can setup and take down your booth whenever you'd like.

We'll be opening the doors 1 hour early (11am) that morning for 3D artists to setup their booths. It is not required, but recommended that you setup at 11am or as early as possible to beat the rush. Your booth location will be first come first served and a RBB staff member will be there to help with any questions on booth location. You are responsible for bringing in your own table and any items needed for your booth. There is no electrical access at any booth, however you can use a nearby plug to charge phones, etc. We have plenty of chairs to borrow, but you can also bring your own. Please plan on occupying a total space of approximately 8'x5'.

3D artists will also handle their own transactions on any art sales via a portable card reader, PayPal, Venmo, good old cash, whatever you fancy. You determine your own pricing. All art sales are commission-free, so you will receive 100% of the sale price. **Please contact social@rightbrainbrewery.com for any questions on booth arrangements.**

Artist understands that any loss or damage to artwork is not the responsibility of Right Brain Brewery or its employees.
